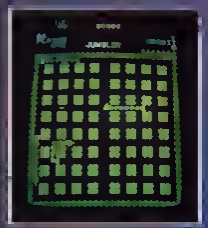
SNAKES ALIVE!
I THOUGHT I SAW A RED-TAILED SERPENT.
I'LL SHOOT OFF YOUR TAIL-THEN I'LL RAM YOU!
MAN! THIS IS A SNAKE EAT SNAKE GAME
Jungler
The new sneaky snakey maze game from
STERN
SEEBURG

It's sneaky, all right. The player's snake is white and can fire on command by depressing a fire button. The object of the game



is to destroy attacking snakes. Opposing snakes randomly fire in an attempt to reduce the length of the player's snake. The player's snake is destroyed by a head-on collision with attacking snakes having [illegible] tails. The opposition can be destroyed, however, by ramming them head-on or by shooting

their tails off from the rear. Once all attacking snakes are destroyed, a new maze appears. So, there you have it. Stern-Seeburg's Jungler. It's a real snake in the cash.
